Thin-film photovoltaic manufacturer **Abound Solar (formerly AVA Solar)** has signed long-term sales agreements with two Germany-based solar integrators: Wirsol Solar and juwi solar.

"Abound Solar modules will enable us to significantly accelerate our deployment of multi-megawatt solar installations," comments Markus Wirth, managing director of Wirsol Solar.

"Having carefully examined many emerging solar technologies, we are convinced that Abound Solar will be a leading photovoltaic manufacturer with modules that meet our strict requirements for cost-effective performance and reliability," adds Lars Falck, managing director of juwi solar.
